Find Credibility and Give Credit

Find and Select Good Data

What are the go-to reliable sources that I need to check on this topic?

Given my topic, what other sources would be good to use to represent other opinions and information?

Use Trustworthy Sources

Can I trust these sources, and why?

Was the research conducted responsibly and professionally?

Did the group who did the research have an agenda?

Use Multiple Sources

Are all scientific positions represented?

Is this “new” science or established/widely accepted science?

Cite Your Sources

Who says?

Why should I trust them?

Do we know who your sources are, and why they are legitimate?

Do you have permission to use any images you didn’t create yourself?
